Re: Environmental Protection Agency's finding of "no historic properties affected" concerning the remediation of environmental contamination at 2201 & 2219 West Michigan Street using funds from the Indiana Brownfields Program (DHPA #14933)

Dear Ms. Pels:

Pursuant to Section 106 of the National Historic Preservation Act (16 U.S.C. § 470f) and 36 C.F.R. Part 800, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has conducted an analysis of the materials dated June 13, 2013 and received on June 17, 2013, for the above indicated project in Indianapolis, Wayne Township, Marion County, Indiana.

We concur with the EPA's June 13, 2013 finding that there are no historic buildings, structures, districts, objects, or archaeological resources within the area of potential effects that will be affected by the above indicated project.

This identification is subject to the following condition:

- The project activities remain within areas disturbed by previous construction.

If any archaeological artifacts or human remains are uncovered during construction, demolition, or earthmoving activities, state law (Indiana Code 14-21-1-27 and 29) requires that the discovery must be reported to the Department of Natural Resources within two (2) business days. In that event, please call (317) 232-1646. Be advised that adherence to Indiana Code 14-21-1-27 and 29 does not obviate the need to adhere to applicable federal statutes and regulations.

If you have questions about archaeological issues please contact Amy Johnson at (317) 232-6982 or ajohnson@dnr.IN.gov. If you have questions about buildings or structures please contact Kim Marie Padgett at (317) 234-6705 or kpadgett@dnr.IN.gov.

Very truly yours,

Chris Smith
Deputy Director
Indiana Department of Natural Resources
